

**Chapter 21: Economic Advance and Social Unrest (1830-1850)**

Key Themes

- How did industrialization impact traditional social institutions? Women and the family?
- What was labor’s response to the changes of industrialization?
- How did social thought develop in response to the changes of the industrial world? What were these new philosophies?
- Why were there widespread revolutions in Europe in 1848? What were the most significant outcomes of the revolutions?
-
